

DEVARSHI DESAI

Webmaster

Chattenden, Kent | 07884430773 | devarshidesai2019@gmail.com | [LinkedIn](#) | [Portfolio](#)

Front-End Developer and Webmaster with over 6 years of experience creating responsive, high-quality web pages and optimising e-commerce platforms for performance, accessibility, and user engagement. Skilled in HTML, CSS, JavaScript, and Git, with hands-on experience managing and maintaining live B2B, B2C, and app platforms. Eager to advance into a Front-End Developer role within Nestlé, focusing on developing expertise in React and modern frameworks while contributing to innovative, user-focused digital experiences.

WORK EXPERIENCE

Webmaster, Nestlé Nespresso SA

08/2024 - Present

- Maintain and optimise front-end code across B2C, B2B, and App platforms, building and integrating reusable components via API endpoints for landing pages, hero banners, navigation, and app features to enhance performance, accessibility, and user experience.
- Conduct accessibility audits across the UK website, ensuring WCAG compliance and implementing improvements that raised accessibility scores above 80%.
- Build and maintain reusable front-end components using Storybook and Emergya, ensuring 100% design consistency, scalability, and ease of integration.
- Create and update Drupal components to support campaigns, ensuring the implementation of responsive, accurate, and accessible design.
- Build and launch 10+ high-profile and seasonal campaigns — including David Beckham, Starbucks, Black Friday, and Year-End — managing all front-end updates from landing pages to merchandising.
- Update and maintain over 50 product SKUs across platforms, ensuring accurate listings and continuous product availability.
- Conduct A/B testing and optimisation using Monetate to improve website performance, conversion rates, and overall user experience.
- Participate actively in agile delivery, including Scrum ceremonies and JIRA task management, ensuring 95% on-time delivery of sprint goals.
- Maintain code integrity and streamline collaboration using Git, managing over 150 commits and 66 pull requests across projects.
- Mentor and support 2 team members to improve coding standards and workflow efficiency through peer reviews and best practice sessions.

Front End Developer, C. & J. Clark International Ltd

11/2022 – 07/2024

- Delivered front-end solutions for 20 global markets, ensuring consistent user experiences and improved accessibility and performance through best coding practices.
- Converted 12 Figma wireframes into high-quality, mobile-first, responsive landing and campaign pages with semantic HTML, achieving 100% design fidelity and SEO optimisation.
- Collaborated with 5 UI and brand designers to produce over 60 promotional assets, including sale, skinny, and hero banners, ensuring brand consistency across campaigns.
- Developed 30+ Handlebars.js components to enhance regional content delivery, improving website

usability and consistency across multiple markets.

- Supported the global expansion project by migrating 400+ pages across regions during a re-platforming initiative, leveraging headless CMS platforms such as SAP Hybris and Ampliance.

Web Developer, Leigh Academies Trust

09/2021 – 10/2022

- Enhanced team skills and knowledge by conducting training programs for over 20 colleagues on accessibility and website functions
- Led a team of 3, effectively delegating tasks and mentoring junior colleagues to boost productivity and team performance.
- Delivered over 4 responsive WordPress sites from wireframes, utilising advanced features such as Custom Post Types and Advanced Custom Fields to meet client needs.
- Partnered with the executive team to significantly improve the Leigh Academies Trust website, resulting in a 64% increase in accessibility and a 77% increase in mobile traffic within the first 3 months.

Junior Web Developer, Leigh Academies Trust

09/2019 – 09/2021

- Provided daily technical support and troubleshooting for over 50 clients across the Trust, handling website updates and resolving issues.
- Contributed to the successful delivery of 29 critical projects by actively participating in the software development life cycle.
- Managed SEO for 31 sites using tools like Yoast SEO, Google Analytics, and Hotjar
